# NEW HOME FOR ARCHICAD FANS

Discover the new  
Graphisoft Community

Graphisoft Community makes it faster and easier for Archicad, BIMcloud, and BIMx users to share solutions and get expert help through a state-of-the-art, engaging user experience

Sep 20, 2021 21:00 UTC

## Archicad users benefit from new, state-of-the-art Graphisoft Community platform

**BUDAPEST, September 20, 2021 —** Graphisoft, the leading Building Information Modeling (BIM) software solution provider for architecture, today announced the launch of Graphisoft Community, merging Archicad Talk and the English-language Help Center into one, easy-to-search resource. The state-of-the-art platform offers fast, efficient support and search functions, and ensures quick feedback from peer users and Graphisoft experts.

A single sign-in using a [Graphisoft ID](#) gives instant access to both **Archicad Talk** and the English-language **Help Center** — multi-language support will be rolled out on an ongoing basis. Current users of Archicad Talk are encouraged to migrate their accounts to the new Community portal as quickly as possible to take advantage of the new, streamlined portal — their previous activities and content will move with them. Graphisoft Community also introduces a fresh, engaging approach to knowledge-sharing on the portal through incentives, badges, rankings, challenges, and competitions.

“Graphisoft Community is more than just a rebranding of our existing forums and Help Center,” said Gordana Radonic, Global Community Manager at Graphisoft. “The new portal will make it much easier for Archicad, BIMcloud, and BIMx users to search for solutions to common questions, get quick help from Graphisoft experts, share best practices with peers, and join fun competitions and design challenges,” she added.

“The merge of Archicad Talk and Help Center into one, easy-to-use platform has made the search process so much faster,” said Huseyin Penbeoglu, Architectural Designer at Bimpetus LTD in the UK. “Graphisoft Community helps me stay focused on project deliverables.”

“This was the first full week of the new Graphisoft Community site, and the number of posts is the highest we have ever had — the site is absolutely buzzing with activity!” said Gergely Kmethy, Vice President, Customer Success at Graphisoft. “It’s great to see our users taking full advantage of the new portal.”

## **Building Together Design Challenge — September 6-24**

To encourage Archicad users around the world to work on one creative project together, Graphisoft launched the [Building Together Design Challenge](#) on September 6. The challenge invites participants to submit their designs using a simple template focused on what the words ‘inside’ and ‘outside’ mean to them.

Participants are invited to encourage their friends and colleagues to vote for their design — and to submit their own. Graphisoft will reveal a giant architectural puzzle made up of the submitted designs on September 24. The 50 designs with the most votes will win prizes. For more information and to enter the design challenge, visit [Building Together Design Challenge](#) on the

Graphisoft Community portal.

## **About the Nemetschek Group**

The Nemetschek Group is a globally leading software provider for digital transformation in the AEC/O and media industries. Its intelligent software solutions cover the entire lifecycle of building and infrastructure projects and enable creatives to optimize their workflows. Customers can design, build, and manage buildings and infrastructures more efficiently and sustainably and develop digital content such as visualizations, films and computer games more creatively. The software provider is driving innovations such as digital twins as well as open standards (OPEN BIM), and sustainability in the AEC/O industry, constantly expanding its portfolio by also investing in deep-tech startups. Currently more than seven million users worldwide are shaping the world with the customer-focused solutions of our four divisions. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs around 3,600 experts globally.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company generated revenues amounting to EUR 801.8 million and an EBITDA of EUR 257.0 million in 2022.
