dRofus and Nemetschek partner Bluebeam at BILT ANZ 2022

Olso, Pasadena, November 24, 2022: dRofus, the leading planning and data management software for the AECO industry, will be offering in-person demonstrations of their software at [BILT ANZ 2022](#), being held at RACV Royal Pines, Gold Coast from the 24th-26th November, 2022.

We will be appearing alongside [Nemetschek Group](#) partner and leading developer of solutions and services for architecture, engineering and construction professionals worldwide [Bluebeam](#).

“BILT ANZ is one of the premier AECO Technology focused conferences within the Asia-Pacific region and dRofus are delighted to be a Gold Sponsor, together with our Nemetschek Group sister brand Bluebeam.” said Chris Razzell, Managing Director of dRofus.

“dRofus is a building information management platform used by all stakeholders throughout the building lifecycle, optimizing various workflows and deliverables. Information management is of critical importance for all project teams and dRofus delivers the “Golden Thread” of information through planning, design, construction and into the operations phase. Many Building Owners have Asset Information Requirements and desire for a Digital Twin, and dRofus provides the data-driven solution to enable this. We look forward to meeting with existing customers, plus talk to organizations that are trying to solve these challenges.”

“Bluebeam is always excited for the opportunity to engage directly with our customers, and BILT 2022 offers a special opportunity for us to introduce Bluebeam Cloud, our new iOS and browser-based app that extends the power of Bluebeam into the field,” said Kelly Furtado, Bluebeam Regional Director, Australia.

“Being able to provide teams in the field with real-time access to the latest plans while effortlessly managing defects, RFIs and submittals represents a milestone in Bluebeam’s journey to unlock the power of your data and make it more accurate and accessible. This is a vision we share with our Nemetschek partner dRofus, who we’re proud to partner with to deliver the flexibility and data accessibility stakeholders require to work together from anywhere.”

Bluebeam develops innovative technology solutions that set the standard for project efficiency and collaboration for over two million design and construction professionals worldwide. Their flagship software, Bluebeam Revu, along with the all-new Bluebeam Cloud app, give teams the flexibility to work together through the design, build and handover process by leveraging open data formats to seamlessly access documents and data on any web-connected or iOS device, onsite or off.

“Nemetschek is excited to be partnering with DBEI for their BILT ANZ conference. As a group, ANZ is an important region for us and one in which we see continued opportunity. We are focused on making the lives of those in

the AEC/O industry better, easier, and more connected. We've seen the effect that powerful tools like Bluebeam and dRofus can have on the built world and we are continuing to look at ways to improve based on what our users around the world want and need." – Matt Wheelis, SVP of Strategy, Build & Construct Division at Nemetschek Group.

BILT ANZ is an annual event, designed to cater to the needs of those who design, build, operate and maintain our built environment. As a community of professionals, BILT is committed to improving the many ways the industry works together.

About the Nemetschek Group

The Nemetschek Group is a pioneer for digital transformation in the AEC/O and the media & entertainment industries. With its intelligent software solutions, it covers the entire lifecycle of building and infrastructure projects, guides its customers into the future of digitalization and enables them to shape the world. As one of the leading corporate groups worldwide in this sector, the Nemetschek Group increases quality in the building process and improves the digital workflow for all those involved. Customers can design, build, and manage buildings more efficiently, sustainably and resource-saving. The focus is on the use of open standards (OPEN BIM). The portfolio also includes digital solutions for visualization, 3D modeling, and animation. The innovative solutions of the brands ALLPLAN, Bluebeam, Crem Solutions, dRofus, FRILO, Graphisoft, Maxon, Nevaris, RISA, SCIA, Solibri, Spacewell and Vectorworks in the four customer-oriented segments are used by approximately 6.5 million users worldwide. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs around 3,400 experts all over the world.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company achieved revenue amounting to EUR 681.5 million and an EBITDA of EUR 222.0 million in 2021.
