## Enscape for Mac Now Available for Vectorworks

*Now, All Vectorworks Users Can Harness the Power of the Cutting-Edge Rapid Visualization Plugin.*

**Columbia, MD (October 17, 2023)** – [Chaos](#), the world's largest 3D visualization company and a member of the [Vectorworks Partner Network](#), has extended [Enscape for Mac](#), directly connecting its intuitive real-time visualization tools to the [Vectorworks](#) platform on Mac OS. With full integration into Vectorworks, architects and designers can explore high-quality 3D walkthroughs at every stage of the design process, yielding faster changes and detailed visualizations for their clients.

“This collaboration solidifies our commitment to incorporating next-gen technology that delivers immediate advantages to our customers,” said Vectorworks Senior Director of Rendering and Research Dave Donley.

“Enscape’s powerful real-time rendering capabilities perfectly complement Vectorworks’ existing tools and resources, further empowering our customers to transform their models into immersive 3D experiences while streamlining their review processes, saving valuable time, and ultimately helping them win more work. Now, our users on both Mac and Windows can fully embrace the advantages this exciting partnership offers.”

Used throughout the architectural world, Enscape is one of the easiest ways to visualize CAD/BIM data in real time. Perfect for daily design reviews, live demos, and client coordination, Enscape moves projects forward via instant feedback, allowing architects to represent their work in the moment using the power of immersive 3D.

### **Enscape for Mac Features:**

- **Real-Time Walkthroughs** – Navigate fully-rendered projects with perspective, walk and fly modes using a live link between Enscape and Vectorworks.
- **Render-Ready 3D Assets** – Fill scenes with a wide range of accessories, vegetation, people, furniture and vehicles to bring more realism to a design.
- **Material Editing** – Adjust material attributes like color, reflectivity, light emission and height to test ideas or lock in specific looks.
- **Visual Variety** – Display scenes in a variety of rendering styles or adjust atmosphere settings like illumination and cloud density for clients in the moment.
- **Multiple Exports** – Share visualizations with design teams and clients as stills, panoramas, web links and batch renders.

“Enscape takes the expertise out of visualization, so architects can assess the impact of design decisions in record time,” said Petr Mitev, VP Product,

Solutions for Designers at Chaos. “With our new Mac integration for Vectorworks, we’re bringing that power to even more people, so designers can enjoy real-time feedback while working directly within the Vectorworks platform.”

Enscape for Mac is available now for [Vectorworks 2024](#) and Vectorworks 2023 SP6. Existing users can download the new versions or improvements for free and subscription plans can be found at the [Enscape pricing page](#). Users can also try Enscape for Mac with a free [14-day trial](#).

### **About Vectorworks, Inc.**

Vectorworks, Inc. is an award-winning design and BIM software provider serving the architecture, landscape architecture and entertainment industries in 85 countries. Built with designers in mind since 1985, Vectorworks software offers you the freedom to follow your imagination wherever it leads you. Globally more than 685,000 users are creating, connecting, and influencing the next generation of design with Vectorworks on Mac and Windows. Headquartered in Columbia, Maryland, with offices in the UK, Canada, and Australia, Vectorworks is a part of the [Nemetschek Group](#). Learn how you can design without limits at [vectorworks.net](#) or follow @Vectorworks.

### **About Chaos**

Chaos is one of the world’s largest 3D visualization companies, and for over 20 years has empowered architects, artists and designers to visualize anything they can imagine. Chaos offers intuitive and powerful workflows for creatives across the entire design spectrum, including architecture, engineering, construction, product design, manufacturing, and media and entertainment.

In 2022, Chaos merged with Enscape and acquired Cyllindo. In 2023, Chaos acquired AXYZ design. From the initial design to the final deliverable, Chaos Enscape provides an integrated, real-time visualization workflow for the entire architectural design process. With a new bridge between Enscape and

V-Ray, architects and specialists can finally collaborate on photorealistic visualizations at any part of their process. Chaos has more than 700 employees and offices in 11 cities around the world. ## **About the Nemetschek Group**

The Nemetschek Group is a globally leading software provider for digital transformation in the AEC/O and media industries. Its intelligent software solutions cover the entire lifecycle of building and infrastructure projects and enable creatives to optimize their workflows. Customers can design, build, and manage buildings and infrastructures more efficiently and sustainably and develop digital content such as visualizations, films and computer games more creatively. The software provider is driving innovations such as digital twins as well as open standards (OPEN BIM), and sustainability in the AEC/O industry, constantly expanding its portfolio by also investing in deep-tech startups. Currently more than seven million users worldwide are shaping the world with the customer-focused solutions of our four divisions. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs around 3,600 experts globally.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company generated revenues amounting to EUR 801.8 million and an EBITDA of EUR 257.0 million in 2022.
