

# DESIGN. SUBMIT. WIN.

Vectorworks Design Scholarship Applications are  
open from Dec. 1, 2020 to Mar. 31, 2021

Dec 02, 2020 18:28 UTC

## Fifth Vectorworks Design Scholarship Opens for Submissions

Students can win up to \$10,000 USD in global competition

**Columbia, MD (December 2, 2020)**—Global design and BIM software provider [Vectorworks, Inc.](#) announces its fifth Vectorworks Design Scholarship. This global competition is open to undergraduate and graduate students in major disciplines related to architecture, landscape architecture, landscape design, entertainment and interior design who can now submit either new or old projects for a chance to win up to \$10,000 USD.

“This year’s theme is “Design. Submit. Win” and we want students from

around the world to do just that,” said Vectorworks Marketing Programs Director Alice Lowy. “This is a prime opportunity for students to show off their best work for professional recognition and more, and we look forward to seeing what students come up with.”

To apply, students must complete a quick online application providing their contact information followed by details about their project before submitting for consideration. A panel of judges will evaluate submissions based on design, technology, originality, presentation and writing.

The competition includes a two-round judging process. First-round winners will each receive \$3,000 USD and will be entered for the chance at the grand prize Richard Diehl Award, worth an additional \$7,000 USD. Scholarships may be used as winners see fit from tuition to travel. Additionally, winners’ schools will receive free [Vectorworks Designer](#) software and free virtual workshop training.

“I entered the Vectorworks Design Scholarship to show I could design a stage, present it with clarity and more in software programs like After Effects, [Vision](#) and MAonPC,” said Kristopher Clemson, founder of [Bifröst Lighting LLC](#) and last year’s first entertainment Richard Diehl Award winner. “Winning the scholarship was a tremendous help in getting my career started and I encourage all students to enter the contest, because not only is the scholarship money helpful, but it’s also an amazing opportunity to get your foot in the door into your industry, whether you attend a well-known school or not.”

Submissions are open now through March 31, 2021. Winners will be announced June 16, 2021. Students can also visit the [academic programs page](#) to find additional resources to help with their projects.

## **About the Nemetschek Group**

The Nemetschek Group is a pioneer for the digital transformation in the AEC industry. With its software solutions, it covers the complete life cycle of building and infrastructure projects and guides its customers into the future of digitalization. As one of the world's leading corporate groups, the Nemetschek Group increases quality in the construction process and improves the digital workflow of all those involved in the construction process. Leveraging the software, buildings can be planned, built and operated more efficiently, sustainably and in a resource-saving manner. The focus of the Nemetschek Group is on the use of open standards (Open BIM). The portfolio also includes digital solutions for visualization, 3D modeling and animation. The innovative products of the 16 brands in the four customer-oriented divisions are used by approximately six million users worldwide. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs more than 3,000 experts.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company achieved revenue in the amount of EUR 556.9 million and an EBITDA of EUR 165.7 million in 2019.
