Graphisoft today unveiled significant updates to its key service offerings

Jul 14, 2022 11:21 UTC

## Graphisoft further empowers its customers' software ecosystem with updates and benefits to Graphisoft Forward, Graphisoft Learn, and the Graphisoft Community

*Archicad users can increase the return on their software investment through automatic upgrades, exclusive tools, role-specific training, and personalized technical support.*

**BUDAPEST, July 14, 2022 — Graphisoft, the leading Building Information Modeling (BIM) software solutions provider for architecture, today unveiled significant updates to its key service offerings — enabling Archicad users to achieve returns on their software investment through automatic upgrades, exclusive tools, personalized technical support, and role-specific training programs. The latest announcement supports Graphisoft’s strategy of combining innovative architectural software solutions with supportive services and access to a global community of fellow users.**

### **Graphisoft Forward**

Graphisoft Forward is a robust service and benefits package — Graphisoft’s global response to the real-world demands of running a building design practice today. Subscribers can maximize value and productivity while lowering the overall cost of ownership through exclusive tools, support, and services. Product updates are included and guarantee that Archicad users benefit from the latest innovations and capabilities instantly.

“We recognize that our customers can benefit from an ecosystem that complements their investment in software. Graphisoft Forward is a response to the needs of our customers to ensure that they can focus on their business,” said Márton Kiss, Director, Global Customer Engagement at Graphisoft.

### **What’s new in Graphisoft Forward**

With the release of Archicad 26, Graphisoft Forward subscribers get access to powerful productivity tools, including:

- **Library Part Maker** — architects can develop their own parametric object library, such as doors, windows, etc. without scripting.
- **Additional Surface Catalogue** — Engaging, modern visualizations make client approvals fast and easy thanks to the fresh content added to the Additional Surface Catalog.
- **One-year Enscape subscription** free with a two-year commitment — combine real-time rendering and virtual reality that brings visual exploration directly into the modeling tools, so architects can focus on creating and building great architecture. Visit [enscape.graphisoft.com](https://enscape.graphisoft.com) for details.

## Graphisoft Learn

Graphisoft Learn is an innovative, modern, and flexible learning program that helps users get the most out of Graphisoft's solutions and services through individual courses, learning paths, and learning bundles specific to industry roles and responsibilities. Graduates of the online self-paced, hybrid, and live Learn programs receive globally recognized certification, further strengthening their competitive edge in the AEC industry.

"I was very impressed by the versatility of the Learn Portal – it offered more than I expected, and it really felt tailor-made," said Ruben Groot, BIM Manager and Architect at Groot Architecture. In busy times, the Learn Portal offers me an opportunity to delve further into BIM in the areas that are important to me at times that suit me. It enabled me, both as an architect and an external BIM manager, to get the most out of Archicad and to help other architectural firms with the aim of making better buildings through better BIM."

## What's new in Graphisoft Learn

With today's release of Archicad 26, the first of three bundles is now available for purchase at [learn.graphisoft.com](https://learn.graphisoft.com). The **Model Authoring Bundle** includes 20 self-paced video courses and 14 trainer-led online courses, organized in several learning paths around modeling, documentation, design options, and BIM workflows. Upon successful completion of the courses, users are awarded the Archicad BIM Author Certificate.

Additional training bundles will be available for purchase later this year. These include:

- **Model Management Bundle:** equips users with the knowledge required to coordinate a model and manage project delivery.
- **Office Management Bundle:** includes materials related to BIM standards, office-level BIM practices, and people and management processes, all required to run a BIM-enabled practice.

## Graphisoft Community

Graphisoft Community makes it fast and easy for Archicad, BIMcloud, BIMx, and DDScad users to share solutions and get expert help through a state-of-the-art, user-friendly experience that combines Archicad Talk and Help Center into one, easy-to-search resource. The platform offers fast, efficient support and search functions, and ensures quick feedback from peer users and Graphisoft experts.

## What's new in Graphisoft Community

- **Archicad 26 New Features articles** – users can acquaint themselves with all the latest capabilities and improvements in the latest release thanks to the practical examples provided in each article. [Read the articles](#).
- **Graphisoft Insights** – a one-stop hub for news on solutions and services, events, competitions, training, customer success stories, and more. Topics are organized into categories for easier searching. [Visit Graphisoft Insights](#).

“We are truly inspired by our users' knowledge, creativity, and willingness to share,” said Gordana Radonic, Global Community Manager. “Graphisoft Community is an essential resource for everyone who is looking for guidance, wants to share ideas, or involve others in shared thinking. This allows everyone to focus their time on doing what they do best – creating great buildings, with an extra layer of inspiration coming from fellow users,” she added. ### **About the Nemetschek Group**

The Nemetschek Group is a pioneer for digital transformation in the AEC/O and the media & entertainment industries. With its intelligent software solutions, it covers the entire lifecycle of building and infrastructure projects, guides its customers into the future of digitalization and enables them to shape the world. As one of the leading corporate groups worldwide in this sector, the Nemetschek Group increases quality in the building process and improves the digital workflow for all those involved. Customers can design, build, and manage buildings more efficiently, sustainably and resource-saving. The focus is on the use of open standards (OPEN BIM). The portfolio also includes digital solutions for visualization, 3D modeling, and animation. The innovative solutions of the brands ALLPLAN, Bluebeam, Crem Solutions, dRofus, FRILO, Graphisoft, Maxon, Nevaris, RISA, SCIA, Solibri, Spacewell and Vectorworks in the four customer-oriented segments are used by approximately 6.5 million users worldwide. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs around 3,400 experts all over the world.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company achieved revenue amounting to EUR 681.5 million and an EBITDA of EUR 222.0 million in 2021.
