Moves by Maxon Update Offers Streamlined Workflow

Mobile App Facilitates Facial and Body Motion Capture for Cinema 4D Utilizing Apple's AR-Toolkit

Friedrichsdorf, Germany, April 13, 2021 – [Maxon](), **the**developers of professional software solutions for motion designers and visual effects artists**,** is pleased to announce the release of an update to [Moves by Maxon]() for iOS devices. Moves by Maxon capitalizes on the emerging technology of Apple's AR-Toolkit, which enables users to capture facial motion and whole body movement; enabling artists to bring motion sequences into [Cinema 4D]() with limited technical effort. Moves by Maxon was released in early 2020 and

has become quite popular among Cinema 4D users. In this lastest updated release several optimizations have been implemented to make the app more stable and user-friendly. Most notably, Moves by Maxon now includes simplified connectivity to Cinema 4D S24 via automatic network discovery, removing the previous need to scan a QR Code image or manually configure the IP address of the machine running C4D.

Moves by Maxon is immediately available from the [Apple App Store](#) and is compatible with iPhone® XR, iPhone® XS, iPhone® XS Plus, iPhone® 11, iPhone® 11 Pro, iPad Pro® (3rd Generation). This new version of Moves by Maxon will work with Cinema 4D R21+ but the ability to transfer content to C4D without the need for a QR code of IP address configuration, requires C4D Subscription Release 24.

Find out more about Cinema 4D system requirements [here](#).

About Maxon

[Maxon](#) makes powerful, yet approachable software solutions for content creators working in 2D and 3D design, motion graphics, visual effects and visualization. Maxon's innovative product portfolio helps artists supercharge their creative workflows. Its product lines include the award-winning [Cinema 4D](#) suite of 3D modeling, simulation and animation technology, the diverse [Red Giant](#) lineup of revolutionary editing, motion design and filmmaking tools, and the high-end production, blazingly fast [Redshift](#) rendering solutions.

Maxon's team is comprised of fun, passionate people who believe in building and empowering a successful artistic community. From its popular, inclusive events to its free [Cineversity](#) educational resources, Maxon recognizes that developing strong connections with creatives and fostering their professional growth is integral to Maxon's ability to stay on top of industry trends and better serve customers.

About the Nemetschek Group

The Nemetschek Group is a pioneer for digital transformation in the AEC industry. With its intelligent software solutions, it covers the entire lifecycle

of building and infrastructure projects and guides its customers into the future of digitalization. As one of the leading corporate groups worldwide, the Nemetschek Group increases quality in the building process and improves the digital workflow of all those involved in the building process. This makes it possible to design, build and manage buildings with greater efficiency, sustainability and environmental compatibility in terms of resources. The focus is on the use of open standards (Open BIM). The portfolio also includes digital solutions for visualization, 3D modeling and animation. The innovative products of the 15 brands of the Nemetschek Group in the four customer-oriented segments are used by approximately six million users worldwide. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs more than 3,000 experts.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company achieved revenue amounting to EUR 596.9 million and an EBITDA of EUR 172.3 million in 2020.
