## Nemetschek Group presents leading building software solutions at BIM World Copenhagen 2024

**Munich, September 17, 2024** – The [Nemetschek Group](#), a leading global provider of software solutions for the AEC/O and media industry, is presenting its innovative software solutions at this year's [BIM World Copenhagen](#) gemeinsam together with four of its brands. BIM World Copenhagen is the leading Scandinavian event for digital transformation and innovative solutions in the fields of construction, real estate, urban planning, facility management and maintenance. The trade show offers Nemetschek an ideal platform to present products and services and to establish contacts with new and existing customers.

Given the global demand for sustainable building practices, the industry is facing major challenges. In order to successfully shape the change towards more sustainability, cross-industry collaboration is required. After many years at the “sister shows” BIM World Munich and BIM World Paris, the Nemetschek Group will be represented at BIM World Copenhagen for the first time this year to present its digital solutions at a joint stand (stand number #36). The main focus of the presentation will be on the products of the brands Bluebeam, Graphisoft, Vectorworks and the Nemetschek solution dTwin, which are primarily aimed at architects, planners, project managers and engineers.

### **Optimized workflows for a more sustainable world: forward-looking keynote and discussion at the Buildings & Design Stage**

The Nemetschek Group, together with the participating subsidiary brands, will be represented at the Buildings & Design Stage on September 19, 2024 from 11:10 a.m. to 12:10 p.m. with an exciting session entitled “Are you looking for an alternative digital ecosystem?”.

In this keynote followed by a panel discussion, participants will learn how cutting-edge solutions from Nemetschek work together to enable AEC/O professionals to create a more sustainable world through optimized workflows. As a pioneer in the digitalization of the building industry, Nemetschek will show how the company supports customers in successfully implementing innovations in the areas of artificial intelligence, sustainability and digital twins:

#### **Nemetschek Presentation & Update, 11.10 - 11.25 (CET)**

- Miguel Krippahl, Key Account Sales Director, Nemetschek Group

#### **Panel Discussion, 11.25 - 12.10 (CET)**

- Thomas Graabæk, Owner, Graphisoft Center Danmark
  - Miguel Krippahl, Key Account Sales Director, Nemetschek Group
  - Tibor Szolnoki, Senior Manager, Product Marketing, Graphisoft
  - Martyn Horne, Director of Product Marketing, Vectorworks
  - Christian Gren, Managing Director, Bluebeam
-

## About the Nemetschek Group

The Nemetschek Group is a globally leading provider of software for digital transformation in the AEC/O and media industries. Its intelligent software solutions cover the entire life cycle of construction and infrastructure projects and allow creatives to optimize their workflows. Customers can plan, construct, and manage buildings and infrastructure more efficiently and sustainably, and develop digital content such as visualizations, films, and computer games in a creative way. The software company drives new technologies and approaches such as artificial intelligence, digital twins, and open standards (OPEN BIM) in the AEC/O industries to increase productivity and sustainability. We are continuously expanding our portfolio, including through investments in disruptive start-ups. More than 7 million users are currently designing the world with the customer-focused solutions of our four segments. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs more than 3,400 experts.

The company, which has been listed in the MDAX and TecDAX since 1999, achieved a revenue of EUR 851.6 million and an EBITDA of EUR 257.7 million in 2023.
