Vectorworks, Inc. a Finalist in 2021 Construction Computing Awards

Columbia, MD (September 27, 2021) – Global design and BIM software provider [Vectorworks, Inc.](#) earns three nominations for the [2021 Construction Computing Awards](#). Vectorworks, Inc. and its product [Vectorworks Architect](#) have been named finalists in the BIM, architectural design and company recognition categories.

In its 16th year, the Construction Computing awards affectionally known as "The Hammers" are looking to showcase and reward the technology, tools and solutions for the effective design, construction, maintenance and

modification of commercial buildings, residential and social housing and civil engineering projects of all sizes.

“We’re honored to have this recognition of our efforts and commitment to the AEC industry,” said Vectorworks UK Director of Customer Success Tamsin Slatter. “Innovation and performance enhancements drive our focus and the [launch of Vectorworks 2022](#) demonstrates our commitment to investing in developments that deliver workflow freedom to designers and creators everywhere.”

Vectorworks is nominated in the following categories:

- **BIM Software of the Year:** Vectorworks Architect
- **Architectural Design Software of the Year:** Vectorworks Architect
- **Company of the Year:** Vectorworks, Inc

The awards are determined by voter submission and a panel of judges. Voters are encouraged to place their votes [here](#) by Nov. 1. Winners will be announced on Nov. 11 at the awards ceremony at the Leonardo Royal Hotel London City.

About the Nemetschek Group

The Nemetschek Group is a pioneer for digital transformation in the AEC/O industry. With its intelligent software solutions, it covers the entire lifecycle of building and infrastructure projects and guides its customers into the future of digitalization. As one of the leading corporate groups worldwide in this sector, the Nemetschek Group increases quality in the building process and improves the digital workflow of all those involved in the building process. Customers can design, build and manage buildings more efficiently, sustainably and resource-saving. The focus is on the use of open standards (OPEN BIM). The portfolio also includes digital solutions for visualization, 3D modeling, and animation. The innovative products of the 15 brands of the Nemetschek Group in the four customer-oriented segments are used by approximately six million users worldwide. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs more than 3,000 experts.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company achieved revenue amounting to EUR 596.9 million and an EBITDA of EUR 172.3 million in 2020.
