

SOLIBRI

A NEMETSCHEK COMPANY

VolkerWessels

The Construction & Real Estate (C&RED) division of VolkerWessels in the Netherlands, understands that an efficient workflow with embedded quality assurance matters when you are delivering 'Big BIM' on a large scale.

Mar 26, 2021 20:00 UTC

VolkerWessels C&RED has chosen a Solibri Enterprise Agreement to help deliver operational excellence and digital innovation

Helsinki, Finland, 24.03.2021: Solibri and VolkerWessels C&RED have signed an enterprise agreement – meaning VolkerWessels C&RED gets unlimited access to Solibri when and wherever needed by its people. As part of the agreement, VolkerWessels C&RED will use Solibri's automated checking for its largest projects – this means that quality data will be available and accessible to deliver construction projects on time with minimal waste.

Bas Wiggers, Teamleader Service Management, Managed Services stated: “The strategic vision of the VolkerWessels construction group is based on continuous development, while improving systems and processes that make us a stronger and more sustainable construction company for future generations. By choosing Solibri, we are happy in the knowledge that we are doing everything to build correctly and efficiently. Our customers can be assured that we are striving to make a difference, and that difference starts by using the latest technologies throughout our division”.

Ville Kyytsönen, Solibri CEO replied “It’s a pleasure to work with such companies like VolkerWessels C&RED. Our role is to offer solutions that help our customers to deliver projects in time, within budget and the expected quality. VolkerWessels C&RED understands that the workflow needs quality assurance and control throughout the process. By applying Solibri properly, you can pass on those benefits not just in terms of financial efficiencies but also have a real positive environmental impact. It is important that forward thinking companies implement BIM tools with deep capability instead of just good-enough-viewers. Non-competitive tools are actually hindering BIM to grow to next levels in terms of productivity and enviromental gains”.

Solibri Enterprise Agreements are designed for large customers with multiple Solibri users and projects. It offers flexibility, scalability, process improvement and predictable costs. The customer has unlimited concurrent license usage with global support when needed. The agreement has a fixed annual baseline cost with multi-year contract offerings as part of the package. Volkerwessels and Solibri will create a range of case studies in the near future to showcase how they are making an impact. See more on www.solibri.com

About Solibri

Solibri is the leader in BIM Quality Assurance and Quality Control. Providing out of the box tools for BIM validation, compliance control, design process coordination, design review, analysis and code checking. Solibri’s corporate message is to develop and market quality assurance solutions that improve the quality of BIM-based design and make the entire design and construction process more productive and cost effective. Solibri’s customers include major building owners, construction companies, architects and engineering firms in

more than 70 countries. Solibri is part of the Nemetschek Group.

About the Nemetschek Group

The Nemetschek Group is a pioneer for digital transformation in the AEC/O industry. With its intelligent software solutions, it covers the entire lifecycle of building and infrastructure projects and guides its customers into the future of digitalization. As one of the leading corporate groups worldwide in this sector, the Nemetschek Group increases quality in the building process and improves the digital workflow of all those involved in the building process. Customers can design, build and manage buildings more efficiently, sustainably and resource-saving. The focus is on the use of open standards (OPEN BIM). The portfolio also includes digital solutions for visualization, 3D modeling, and animation. The innovative products of the 15 brands of the Nemetschek Group in the four customer-oriented segments are used by approximately six million users worldwide. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs more than 3,000 experts.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company achieved revenue amounting to EUR 596.9 million and an EBITDA of EUR 172.3 million in 2020.
