Workflows Instead of Silos: Nemetschek Group Exhibits at BAU 2023

Munich, April 13, 2023 - BAU 2023 opens its doors in just less than a week. The Munich trade fair is then for six days dedicated to the construction industry. The Nemetschek Group, one of the world's leading software providers for the construction industry, is exhibiting for the first time with ten brands at a joint booth, including a broad program of presentations.

The focus of the appearance will be on the topics that are occupying the industry at the moment: How can improved collaboration help increase the efficiency of construction projects? What potential exists along the

construction lifecycle to improve sustainability and the environmental and energetic footprint of buildings? What impact will cloud technologies and digital twins have on workflows in the construction industry of the future? The Nemetschek Group is leveraging BAU as a leading trade fair to present its solutions for greater efficiency and sustainability along the entire building lifecycle together with the ten brands ALLPLAN, Bluebeam, CREM Solutions, dRofus, FRILO, Graphisoft, Nevaris, SCIA, Solibri and Vectorworks. The brands can be found for the first time at an impressive joint booth under the umbrella of the Nemetschek Group in hall C5, booth 322.

The Nemetschek booth offers many opportunities for exchanging, exploring and informing, including a coffee bar and a presentation area. There, all the brands that participate at BAU will present their best practices, lighthouse projects and visions for the construction industry. The complete presentation program at the Nemetschek booth can be found at: <https://www.nemetschek.com/en/event/bau-2023> and in the PDF attached.

The Nemetschek Group is also represented on the Exhibitor Stage with four keynote presentations:

Monday, April 17

13:00 – 13:30 | Plan & Design | Stefan Kaufmann, Product Manager BIM & New Technologies, ALLPLAN
AI now. New digital Solutions for the AEC industry (German keynote)

13:30 – 14:00 | Operate & Manage | Martin Kelm, Head of Smart Building Solutions, CREM Solutions
Focusing Sustainability. Achieving Energy Savings With the Right Tools (German keynote)

Tuesday, April 18

10:30 – 11:00 | Plan & Design | Marton Kiss, Vice President Product Success, Graphisoft
Challenger in BIM collaboration (English keynote)

11:00 – 11:30 | Build & Construct | Ruth Schiffmann, CEO Nevaris and Managing Director Central & Western Europe Bluebeam

Building sustainably. Simply start (German keynote)

Should you still wish to register for the press breakfast on Tuesday, April 18, 2023, 9:00-10:00 a.m., we would be pleased to receive an email with your name, email address and cell phone number to dgoldstein@nemetschek.com.

About the Nemetschek Group

The Nemetschek Group is a globally leading software provider for digital transformation in the AEC/O and media industries. Its intelligent software solutions cover the entire lifecycle of building and infrastructure projects and enable creatives to optimize their workflows. Customers can design, build, and manage buildings and infrastructures more efficiently and sustainably and develop digital content such as visualizations, films and computer games more creatively. The software provider is driving innovations such as digital twins as well as open standards (OPEN BIM), and sustainability in the AEC/O industry, constantly expanding its portfolio by also investing in deep-tech startups. Currently more than seven million users worldwide are shaping the world with the customer-focused solutions of our four divisions. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs around 3,600 experts globally.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company generated revenues amounting to EUR 801.8 million and an EBITDA of EUR 257.0 million in 2022.
